**The moon in June**

A crescent moon,  
a winter sky.  
It's Jan, not June.

A red balloon,  
way up high,  
with crescent moon

from cold immune.  
Let snow lie,  
it's Jan, not June.

A blue lagoon,  
the deep blue sky.  
The crescent moon

some cryptic rune.  
The senses fly.  
It's Jan, not June.

Back home soon  
warm and dry.  
A crescent moon.  
It's Jan, not June.
